

I have known Gary Giles
or approximately 4 years now. WE met
standing in line at our local grocery store.
our conversation somehow led to fishing
and we both started a long conversation
that led to the parking lot for over
two hours. I found that Gary has a
deep passion for the sport of
fishing as I do too.

We became close friends since
this day fishing together and
sharing tips, techniques, and knowledge
of our AREA WATERS.

Gary is a caring father and devotes
time to his high school son with his
school activities and passing along
the love for fishing as well.
